

# Stuffing-Box-Packing Type 2422

## Description

Diagonally braided from natural Ramie fibre, densely impregnated with a PTFE-compound, lubricated.

## Properties

**Style 2422** combines good elasticity and flexibility with a low coefficient of friction.

## Application areas

Very versatile packing for rotary and reciprocating pumps, also suitable for valves. Can be used in many different industries for insensitive applications including the pulp and paper, marine and food industry. Because Ramie does not rot or decompose, **style 2422** is an excellent packing for stern glands and rudder post glands.

## Application media

Cold and hot water, hydrous solutions containing solids, cellulose slurry, brine, oils, greases, etc.

## Not suitable for

Acids and high concentrated lyes, oxygen.

## Benefits

**TEADIT style 2422** is flexible and resilient and installs easily. Low shaft wear.
